## EXPERIENCE

### Signzy – Software Development Engineer I

April 2025 – January 2026

Bangalore, India

- Led the complete frontend development of the **Savings Account Onboarding** journey for Yes Bank, owning the flow end-to-end from UI implementation to integrations and successfully delivering it to **production**.
- Built **responsive**, high-performance interfaces using **React**, enhancing usability, reducing friction, and ensuring a seamless onboarding experience for thousands of users.
- Developing a new internal product, owning **dashboard architecture**, **authentication modules**, and **2FA implementation** using **Next.js**, **Tailwind CSS**, and **React**.
- Converted **Figma designs** into production-ready UI and authored detailed **System Requirements Specifications (SRS)** after conducting R&D on dashboard workflows and UX patterns.
- Collaborate regularly with **product teams** and stakeholders to gather requirements, refine flows, and deliver **high-quality, scalable frontend solutions** in a fast-paced environment.

### Dept/TeknoPoint – Frontend Developer

June 2023 – March 2025

Mumbai, India

- Owned end-to-end development of the *My Opus* mobile app (Aditya Birla Group) as the **sole React Native developer**, handling architecture, feature development, performance tuning, and deployment.
- Published the application on the **App Store** and **Play Store**, achieving **1K+ downloads** and strong ratings, powered by an optimized **WebView-based hybrid architecture**.
- Implemented a **secure authentication system** with native login/signup flows and reusable UI components, improving consistency, reliability, and onboarding success.
- **Collaborated with product, design, and QA teams** to deliver high-quality features, resolve production issues, and drive continuous improvements using **React Native**, **JavaScript**, **Git**, **Xcode**, and **Android Studio**.

### Mentorship – React and JavaScript

Feb 2024 – May 2024

Mumbai, India

- Mentored students at Xsyser Infosystem in **React** and **JavaScript**, covering fundamentals to advanced concepts.
- Taught state management using **Redux Toolkit** and **Context API**, guiding students through hands-on project implementation.

## TECHNICAL SKILLS

**Languages:** JavaScript, SQL

**Fundamentals:** REST APIs, Authentication & 2FA, Responsive UI Design, State Management Patterns

**Libraries / Frameworks:** React Native, React, Next.js, Redux Toolkit, Recoil, Tailwind CSS, Bootstrap

**Version Control & Tools:** Git, GitHub, Firebase, Android Studio, Xcode, VS Code, Jira

## PERSONAL PROJECTS

### StackOverflow Clone | *React, Redux, ExpressJS, MongoDB*

Jan 2023 – Mar 2023

- Developed a full-stack Q&A platform with authentication, user profiles, question posting, answering, and a voting system using **React**, **Redux**, and **ExpressJS**.
- Designed REST APIs and optimized UI rendering with pagination and reusable components for improved performance and scalability.

### Portfolio Website | *React, CSS, Git*

Sept 2022 – Jan 2023

- Built a responsive personal portfolio using **React** with reusable components and SEO-friendly structure to showcase projects and experience.
- Integrated smooth navigation and external links (GitHub, social profiles) for improved accessibility and professional presentation.

## EDUCATION

### Atharva College of Engineering

Mumbai, IN

Bachelor of Engineering in Information Technology, Mumbai University

2015 – 2019
